Forecast for Sunday 10 Oct 2021

Weather: Patchy low cloud on north western facing slopes around dawn, quickly clearing with clear spells developing. Then a largely fine day with sunny spells, just the outside chance of an isolated afternoon and evening shower in the north and northwest.

Chance of cloud free mountain/hill tops above 800m: Close to 100%

Visibility: Occasional cloud above about 500m possible in the north and northwest, early in the morning. Otherwise visibility very good with some decent panoramic views of surrounding mountains with any showers only making small and brief reductions.

Freezing Level*	1600m	1400m	1400m	1700m	1500m	1600m	1500m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling colder than recent days especially later in day. Valley temperatures rising in east and southeast to 17 or 18 Celsius by day.

Forecast for Monday 11 Oct 2021

Weather: Dry with clear spells overnight then a bright start with some sunny spells. Cloud increasing through the morning with outbreaks of rain affecting northern hills around the middle of the day. Becoming brighter again from the west in the afternoon with some sunny spells, especially across the southeast.

Maximum wind: West or northwest around 15mph

Chance of cloud free mountain/hill tops above 800m: Close to 100%, but falling to 30% across the north for a time around the middle of the day

Visibility: Occasional or periods of cloud above 450-600m developing across northern hills for a time around the middle of the day. Otherwise visibility good or very good falling to several kilometres in rain.

Temperature: **Valleys:** Around plus 7 Celsius at dawn rising to 13 Celsius in north and 15 Celsius in south by day.
At 800m: Plus 6 or 7 Celsius.
Freezing level: Above the summits.
